

Stewart Cooper Newell Architects has been serving religious clients since 1971. Our experience includes working with churches built in the late 1800's to new churches utilizing state-of-the-art technology. It is our mission to help the various ministries we serve meet the needs of their congregation and communities where they live.

We accomplish this mission through personal involvement in your project by our Principals and creating open communication with the Building Committee. To understand your needs we utilize face to face meetings to study your ministries including worship, music, education, recreation/fellowship and administration. Our experience includes Master Planning, Worship Centers and Sanctuaries, Family Life Centers and Educational Buildings.
